Osprey Security Wins the Cybersecurity Excellence Award as the 2017 Best Cybersecurity Company

PALO ALTO, CA (February 14, 2017). Osprey Security, the Big Data driven cyber security and threat intelligence company, won the award as the **Best Cybersecurity Company** in this year’s Cybersecurity Excellence Awards. The annual Cybersecurity Excellence Awards are the most prestigious awards across the Cybersecurity industry that honor and recognize the world’s best products and organizations that demonstrate innovation, excellence and leadership in the Cybersecurity arena.

These awards provide a tremendous insight into the most successful companies within the American economy’s most dynamic segment—its Cybersecurity and Information Security domain. Winners were chosen via popular vote from the LinkedIn Information Security Community – a group comprised of nearly 350,000+ members. Companies such as Blue Coat, Check Point, Rapid7, Sophos, Tripwire, Cylance, CyberArk, Darktrace, Lookout, Securonix, and many other well-known names gained national exposure as honorees of the Cybersecurity Excellence Awards.

“The Cybersecurity Excellence Awards is a true validation of the cybersecurity industry. This win is a true reflection of the immense contribution and commitment to excellence from our exceptional team, cutting-edge products, the executive leadership, and our distinguished board members. From just metrics perspective, we have demonstrated strength in building proprietary technology, network effects, economies of scale, and branding making us a leading startup in the United States within the Cybersecurity domain.”

“We view this recognition as a sign of our commitment to being the leading company in the Cybersecurity industry. Knowing that we received the most number of votes in the award history is a strong validation from the security community.” said Dr. Lall, Chairman of the advisory board for Osprey Security.

“Congratulations to Osprey Security for being recognized as the winner in the Best Cybersecurity company category of the 2017 Cybersecurity Excellence Awards”, said Holger Schulze, founder of the Information Security Community on LinkedIn. “With a record 458 entries this year, the awards are highly competitive and our winners reflect the very best in innovation and excellence in the cybersecurity space.”

Since the beginning of 2016, Osprey Security experienced a vertical growth. What began as two guys about a year ago, is now an organization with a global team and offices in Palo Alto,

California and in Singapore. Osprey Security is ready to grow in orders of magnitude in the coming year with the successes and foundation built on the efforts of its team, its customers, and the encouragement from the VCs, investors, and other well-wishers.

About Cybersecurity Excellence Awards

The Cybersecurity Excellence Awards honor companies and individuals that demonstrate excellence, innovation and leadership in information security. This independent awards program is produced in cooperation with the Information Security Community on LinkedIn, tapping into the experience of over 350,000+ cybersecurity professionals to recognize the world's best cybersecurity products, individuals and organizations.
